DIRECTOR OF CENTRAL INTELLIGENCE
Committee on Imagery Requirements and Exploitation
Washington, DC 20505

LOGGED

5 JUN 1985

Traw

DCI/ICS 85-4556
21 May 1985

MEMORANDUM FOR: Deputy Director, Intelligence Community Staff

THROUGH: Chief, Administrative Staff, ICS

SUBJECT: Request for Travel-

25X1

1. Your approval is requested for travel for [redacted]
COMIREX Executive Staff, to SAC Headquarters in Omaha, Nebraska. (U)

25X1

2. The purpose of the travel is to attend and participate in a key briefing on the status of developing the [redacted] concept to meet DoD's cruise missile operational needs. The principal part of the briefing has been scheduled for presentation by two contractors, Science Applications International for the Defense Mapping Agency Headquarters, and the Applied Physics Laboratory for the Joint Cruise Missile Program Office, who are jointly responsible for developing the basic structure for implementing, testing, and validating the concept. Because of the importance of the briefing to getting DoD approval of the concept, [redacted] presence was also requested by the DMA action officer during the pre-briefing review session on 17 May. His attendance is particularly desirable, not only because the concept is to a considerable degree the outgrowth of his past work with DMA and the cruise missile community to make more effective use of already available imagery-derived information, but also because he can address the best procedures for accurately identifying and delineating the urban areas where vertical obstructions should be expected to occur--which is an essential part of an effective concept. (S)

25X1

25X1

3. Departure will be on 4 June with return on 6 June. Authorization for a rental car is requested because public transportation is inadequate. (U)

25X1
